# Noble Living

## *Not Just Care. A Way of Living.*

At **Noble Horizons**, skilled nursing is part of something larger. Residents are supported by 24/7 clinical care while remaining connected to a vibrant campus community.

Daily life includes opportunities for engagement, connection, and routine - all within a setting that feels familiar, welcoming, and alive.

This is what we call *Noble Living*.

### **Mission Statement**

Noble Horizons' Nursing Team is committed to delivering the highest level of individualized resident care possible, in which the total physical, psychological, social, and spiritual needs of each resident are recognized and met.

### **Vision Statement**

It is the vision and intention of the nursing team to promote optimal independence and dignity. Our Resident Care Plan, developed by residents, families, and team members, shall guide all toward the maintenance of high-quality, individualized care. This vision will require an atmosphere where the knowledge, strengths, and skills of our professionals and residents are respected, shared, and utilized by all.

## *When Skilled Nursing is the right fit*

- Ongoing medical care or monitoring is needed
- Support with daily living activities is required
- Recovery after illness, injury, or surgery
- Medication management or specialized treatments
- Rehabilitation services such as physical, occupational, or speech therapy
- Nutritional support or specialized dietary needs

Our team is prepared to respond to a wide range of medical needs and situations. Physicians are on campus regularly, with nurse practitioner support available each week.

For additional care, Noble Horizons is located just 15 minutes from Sharon Hospital, a modern acute-care facility. The Salisbury Volunteer Ambulance Service, located less than a quarter mile from campus, provides prompt response with highly trained emergency medical technicians.

## *Skilled Nursing living options*

### **Riga Residence**

24/7 skilled nursing and memory care support in private rooms designed for comfort and privacy. Ideal for those needing ongoing clinical support or longer-term care.

### **Wagner Terrace**

For individuals who can live more independently while receiving support with mobility, medications, or personal care. Our private rooms overlook the gardens.

### *A Continuum of Care*

As needs change, residents can often remain within the Noble Horizons community, providing continuity and peace of mind.

### *Everyone was very good to me!*

*My room was homey, unlike a hospital. I was very comfortable. The meals and the care were excellent. I was treated very well by everyone. I highly recommend being under your care. They were very good at coming to my room and checking up on and visiting me.*

*You have wonderful, caring nurses.*
